

Ottawa, Canada: **Post-Conference Report**

The conference was promoted in advance via judge apps and the usual Canadian judge channels, namely discord, the Canadian judge FB group, and the event forums.

I had three presenters apply so I took all three of them. After the last conference there was a request for more workshop type presentations. I'm happy to say that $\frac{2}{3}$ of them fit that description.

The topics were:

Alex: You Should Be Writing Tournament Reports

Tania: Community Building

Georges: Judge Consistency Workshop

To allow everyone to present and not have it run super late on any one night we had one presentation on the Thursday after setup and the following two on the Saturday evening. In the future I'll try to work with the TO to ensure the venue can stay open late enough to run all the presentations on the Thursday evening as generally the Friday start time is later.

This is maybe the 4th or 5th conference we've run with F2F connected to an RC so I'm confident we'll keep doing them in the future.
